

NOW HIRING – VINYL TECHNICIAN

We are seeking a Vinyl Technician. Position responsibilities include installation of computer cut and printed vinyl graphics on a multitude of surfaces including but not limited to walls, windows and vehicles, trim capping of channel letters, installation of small interior stud mounted signage, way finding and ADA signage and other general shop duties as determined.

Desired skills

- Familiarity and comfort with working with cut vinyl and wide format printing/laminating.
- Experience with installation of vinyl graphics to vehicles and a wide variety of other substrates.
- Comfortable working with hand-held power tools and working from step ladders scaffold and aerial lifts.
- Detail- oriented, forward thinking skills are critical to the success of this position and organizing your time.
- Strong communication skills, self-motivated, diplomatic and willing to work as a part of team are vital.
- Ability to problem solve and multi task in the shop and on site installs will aid in the success of this position.
- Honesty, integrity and a strong desire to honor commitments.

Responsibilities

- Cut, weed, mask and install vinyl.
- Prepare and install signage/graphics on interior and exterior walls, surfaces and substrates.
- Prepare and install signage and graphics on vehicles.
- Installation of signage and graphics both on and off site.

Please submit a resume cover letter and portfolio of work (if available) to be considered for this position.
